

KITTITAD SRIMOON

Full-Stack Developer

Chiang Mai, Thailand | 099-2719028 | Kittitadsr@gmail.com | github.com/krtt1

PROFESSIONAL SUMMARY

Detail-oriented Full-Stack Developer with a solid foundation in React.js, Next.js, and TypeScript, and expanding expertise in Node.js, Express.js, and ORMs. Recent Digital Business graduate with hands-on experience building high-performance HR dashboards, conducting comprehensive API testing, and performing Code Reviews. Passionate about delivering end-to-end web applications and dedicated to writing clean, maintainable code.

CORE COMPETENCIES

- **Frontend:** React.js, Next.js 15, TypeScript, JavaScript (ES6+), Tailwind CSS, SWR, Recharts, React Leaflet
- **Backend & Testing:** Node.js, Express.js, Sequelize/Prisma ORM, RESTful API, API Testing (Postman), Code Review, JWT, bcrypt
- **Database & Tools:** MySQL, SQL, Git, GitHub, Docker, VS Code, Agile Methodology
- **Languages:** Thai (Native), English (Professional Reading & Writing)

WORK EXPERIENCE

The Office of Disease Prevention and Control Region 1

Chiang Mai, Thailand

Frontend Developer Intern

Nov 2025 – Feb 2026

- Architected and co-developed a Personnel Data Management System (DDC-1), optimizing tracking of employee work histories, competencies, and meeting schedules.
- Engineered a high-performance dashboard with Next.js 15, TypeScript, and Tailwind CSS, ensuring seamless cross-device UX and 100% responsiveness.
- Visualized complex datasets by integrating Recharts for interactive analytics and React Leaflet for geographic mapping, improving analytical efficiency.
- Optimized state management and data fetching by writing custom SWR hooks, reducing redundant API requests and improving UI performance.

KEY PROJECTS

Personnel Data Management System (ODPC1) *Next.js 15 · TypeScript · Tailwind CSS · SWR · Recharts · React Leaflet · Express.js · Sequelize · MySQL*

Frontend (DDC-1)

- Built an 8-page HR dashboard with JWT role-based authentication (user/admin/superadmin) and custom SWR hooks for optimized data fetching and state management.
- Integrated Recharts for interactive analytics and React Leaflet for geographic mapping; achieved full mobile responsiveness with Tailwind CSS.

Backend (ODPC1 API)

- Conducted comprehensive Code Reviews for the backend team, ensuring code quality, maintainability, and adherence to RESTful architectural best practices.
- Executed rigorous Postman API testing across all controllers (employee, job history, competency, meeting, command) and debugged Sequelize/MySQL relational queries to guarantee consistent data flow to the Next.js frontend.

Vanacourt Property Management Platform *Next.js 14 · TypeScript · Tailwind CSS · Recharts · React Calendar*

Frontend (Admin Dashboard & User Storefront)

- Developed two separate Next.js 14 frontends — an Admin Dashboard and a User Storefront — featuring room management, repairs, payments, finance tracking, and notification systems for a property management business.
- Designed mobile-first UI with Tailwind CSS; integrated Recharts and React Calendar for visual analytics and booking data, and implemented QR payment flow with Server Action patterns for all form submissions.

EDUCATION

University of Phayao

Phayao, Thailand | Graduated: 2026 | GPA: 2.98

B.Sc. in Information and Communication Technology (Digital Business)
